

Method #1

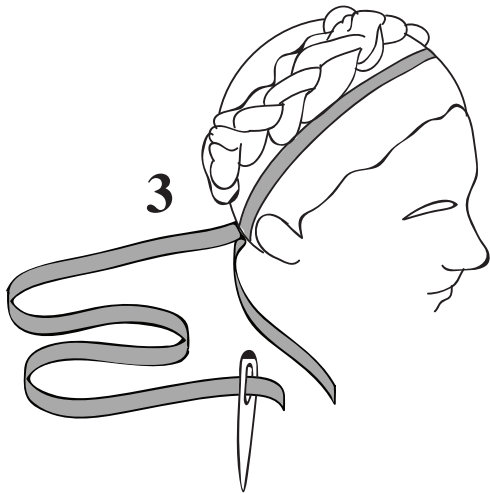

1. Divide hair in half down the middle of the head and braid onto two English braids right behind the ear.

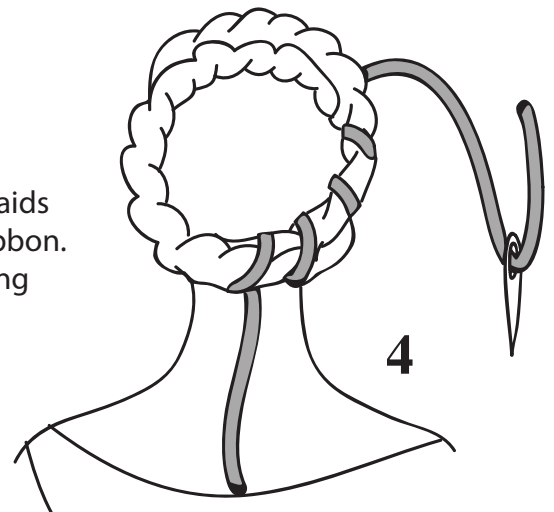

2. Crisscross the braids in back, wrapping along the crown of your head. Loosely bobby pin in place.

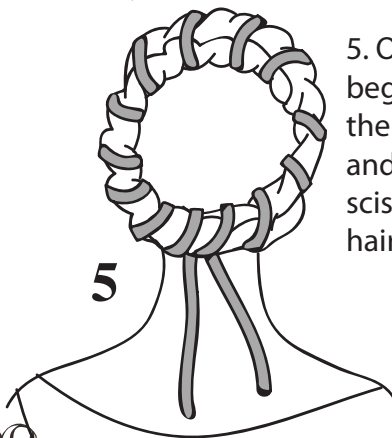

3. Tie the ribbon onto the head head-band-style, having a long tail and a short tail. Use a bobby to pin the knot in the back into place. Thread the needle with the longer ribbon tail.

4. Begin sewing the braids into place using the ribbon. Secure tightly by getting close to the scalp.

5. Once you reach the beginning of the taping, tie the ribbon ends together and trim excess with scissors. Tuck ends under hair.

6. If desired, run another length of ribbon under the stitches as so. Tie in back, trim and tuck ends.
